ESTABLISHING A 100-YD ZERO

To establish a 100-yard zero using this 25-yard target (Standard AR-15 / 5.56mm with a 2.6" optic height):

- Aim specifically at the **center red diamond**.
- Adjust your sights until your bullet impacts land squarely inside the dashed **100 YD ZERO POI** box (1.5 inches low).
- Because the barrel sits below the optic, the bullet must hit low at 25 yards in order to arc up and

OPTIC ADJUSTMENTS @ 25 YARDS

At a distance of 25 yards, 1 MOA roughly equals 1/4 inch. Adjustments require more clicks than they do at 100 yards.

Turret Value	Clicks to move 1/2"	Clicks to move 1"
1/4 MOA	8 Clicks	16 Clicks
1/2 MOA	4 Clicks	8 Clicks
0.1 MRAD	~5.5 Clicks	~11 Clicks
